

## T4001ES Thermostat E

### Frosted display

Blends into the background. The Nest Thermostat E fits into any home with a frosted display that won't steal your décor's thunder.

### Remote control

Download the free Nest app for iOS 8 or Android 4 or later. Then you can change the temperature from anywhere – the beach, your office, or even your bed.

### Energy-efficiency

Start saving from day one. Plus, you can check the Nest app to see how much energy you use and why.

### Home/Away assist

Conserve energy when you're away. The thermostat turns itself down after you leave, so you aren't heating or cooling an empty home.

### Wireless connection

Consume less power with a built-in rechargeable lithium-ion battery.

### Compatibility

Upgrade your system. The Nest Thermostat E works with most 24V heating and cooling systems, including gas, electric, forced air, heat pump, radiant, oil, hot water, solar and geothermal.

 Display	<p>24-bit color LCD 320 x 320 resolution at 182 pixels per inch 1.76 in (4.5 cm) diameter</p>
 Sensors	<p>Temperature Humidity Proximity/Occupancy Ambient light</p>
 Size and weight	<p>Mass: 4.9 oz (139 g)* Diameter: 3.19 in (8.1 cm) Height: 1.14 in (2.89 cm) *Weights may vary slightly</p>
